FIRE RESISTANT FABRICS

The above icon indicates that cushions are also available in a limited selection of fabrics that meet the UK FR (Fire Resistant) standard. See page 154 for details.

ASSEMBLY

Most Tables, Chairs & Loungers require assembly.

AREAS OF USAGE

Certain products are exclusively recommended for use in the residential sector. Please contact your Sales Manager who can advise if a requested product is suitable for contract use.

For use in public areas, in which the furniture is exposed to particularly high stress, such as public educational institutions, fast food restaurants or meeting places, special requirements and standards apply. Please always ask about the suitability of the respective Gloster products for these areas before placing an order with our company.

DISCLAIMER

Although the information in this catalogue is presented in good faith and believed to be correct at the time of printing, Gloster makes no representations or warranties as to the completeness or accuracy of the information. Gloster accepts no liability for any errors or omissions. Gloster reserves the right to change specifications and descriptions in the light of technical developments and the availability of materials.

The humble table. A place to meet, a place to eat, a place to share time, experiences and interact with one another. Tables can be large or small, social or intimate. Shapes range from round, through square to rectangular – some can even be extended for when you need to accommodate more people while others fold up for when storage is limited. All in all, the table has quite a job to do, so just as well we offer a wide variety of options to help find the one that is perfect for you.

And the perfect chair should never go unnoticed in the fray of a social occasion. Easy to move and comfortable from first sit to last drink of the night your seating should be the perfect accompaniment to any evening. Whether modern or traditional, conveniently stacking or designed to endure, each chair has its place.

NOTES

The teak used for the screen slats are produced from the small off-cuts that result from our standard furniture production process. As a result, colour may vary between slats and some slats may include small knots. These imperfections are purely cosmetic and do not affect the performance of the product in any way.

GLOSTER FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent

coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water-resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offers this range of exclusive knitted performance fabrics that are the first to be used outdoors. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.

FABRICS SPECIAL FEATURES

RAIN FABRICS

Sunbrella Rain is a water resistant version of the standard Sunbrella upholstery fabrics. Sunbrella Rain fabrics are treated with a weatherproof coating that minimises water absorption and enables the cushion to dry out much faster than standard fabrics.

Sunbrella Rain fabrics can be completely moisture-free within minutes after a simple wipe-down. When wet, the fabric threads actually expand slightly, meaning any water simply beads up on the fabric surface, rather than seeping into the cushion filling and leaving behind residual moisture. Sunbrella Rain fabrics are a little stiffer than the traditional Sunbrella fabrics, but they share the same market-leading performance in terms of durability, fade resistance, and ease of cleaning - making them the ideal choice for all outdoor living and dining spaces.

UKFR (FIRE RESISTANT) FABRICS

In addition to our standard grades of fabrics, we also offer three specific fabrics in fire resistant versions. The fire resistant versions of the fabrics of Seagull, Granite and Fife Rainy Grey have an additional back coating applied to ensure they meet the stringent UKFR (Fire Resistant) standard. These fabrics are not water resistant, so we recommend that furniture covers are always purchased when specifying these cushions.

UKFR (Fire Resistant) cushions are available on the following furniture collections: Bay, Cradle, Grand Weave, Grid, Kay, Loop, Maya & Vista.

RECYCLED CONTENT FABRICS

The Grade A fabrics, Granite and Anthracite, both contain Sunbrella Renaissance yarns, which are recycled yarns that emulate a homespun look with a natural diversity of colour within the yarn. Due to the nature of the recycled content, these fabrics may exhibit random colour specks and shade variations. These slubs can sometimes be a contrasting colour.

The recycled content used is collected from the Sunbrella manufacturing facility, where the waste is segmented into colour groups, reduced back to its fibre state and finally mixed with virgin fibre before making its way through the manufacturing process. Due to the recycled nature of this fabric, the colour may vary between production batches and large sections of recycled yarns may run sporadically throughout the fabric. The presence of these recycled yarns should not be interpreted as imperfection, but as part of the character of the recycled fabric.

HALO PARASOLS WARRANTY

3 YEARS - Structural components, fittings and mechanisms, covering materials and workmanship in normal use, not including superficial or accidental damage, or expected normal wear and tear.

1 YEAR - Powder coat finish, covering adhesion and environmental resistance, not including superficial or accidental damage, or expected normal wear and tear.

WARRANTY

2019 WARRANTY TERMS

Gloster Furniture warrants to the original purchaser that our outdoor furniture is free from defective materials and workmanship under its intended reasonable use.

The warranty starts from the date of sale to the end consumer.

The warranty is non-transferable, and is applicable to the original purchaser only. Proof of purchase will be required.

Any product believed to be of faulty materials or workmanship should be reported to Gloster Furniture as soon as reasonably possible.

Following Gloster Furniture's assessment, any fault found and covered by this warranty will be rectified by the replacement or repair of the faulty part or product. If deemed necessary to return for repair, Gloster Furniture will arrange for the product to be returned to us via our choice of transit, repaired, and returned free of charge. Circumstances may dictate that local repair is best course of action.

No returns are accepted without prior authorisation from Gloster Furniture.

The product must not have been misused, or handled carelessly, nor been damaged, neglected, or used in abnormal conditions.

The product must not have been modified, altered in any way, or repaired by anyone other than a member of Gloster staff or their appointed representatives.

The warranty will only be valid if proper maintenance and cleaning have been carried out in accordance with Gloster's aftercare instructions.

This warranty does not apply to normal wear and tear caused by regular use.

Damage such as dents, scratches, marks and tears to fabrics or fibres that have happened during normal use are not covered by this warranty.

Small cracks, which may appear in the end grain of teak when exposed to the elements, and any change of appearance due to usual weathering are considered entirely natural for teak outdoor furniture and are not covered by this warranty.

Wheels and footcaps are excluded from the general warranty, but are guaranteed for a period of 1 year from the date of delivery.

Sling / Strap / Rope warranty covers against tearing, discolouration or fading. Normal sagging is to be expected in use, and is not covered by this warranty.

Due to the nature of the planks used to create RAW table tops, any splits, cracks in the end grain, hollow knots, twisting of timber over time or degradation of the sapwood when outdoors are considered entirely natural for thick-plank, teak outdoor furniture and are not covered by this warranty.

REPORTING OF COMPLAINTS

In order to look in to complaints/warranty issues Gloster requires ALL of the following information provided in one single email:

Photographs of the issue - general overview and close ups of specific areas of damage and/or failure.

Product code of item affected.

Batch number & country of origin - this can be found on a small silver rectangular label which is located out of sight, usually on the underside of the item (on the inside of the zipper on cushions / on the label on covers), containing a 6 digit number and the country of origin.

Date of purchase - please send a copy of the invoice as proof of the purchase date.

Location of furniture - e.g. coastal / inland / swimming pool.

Brief description of the damage and how the damage occurred.

Please always use a reference, i.e. customer name in the title of the email, so it is easy to track.

Once all of the above information has been received, we will review the case and advise in due course.

RETURNS POLICY

Written authorisation must be obtained from Gloster prior to returning any physical products.

Products returned without prior written authorisation will be refused.

Gloster only accepts the return of a product if it is a manufacturer's defect.

Returned products are inspected by our Quality Control Manager and replaced or repaired if the damage is a result of a manufacturer's defect. If it is determined not to be a manufacturer's defect, the customer, along with the Quality Control Manager will decide what further action to take.

Returned goods will only be accepted if returned in their original packaging.
